

Website Design & Hosting

Urban Techs offers homes & businesses a very unique experience in the often confusing world of obtaining, creating, and administering your own website.

Step by step, our friendly web development team will walk you through the process of developing a web presence unequaled by others. Your website should be a true extension of who you are, and we are here to bring that vision to life.

We do all the work for you!

Call us 1-888-URBAN-09 or email us webmaster@urban-techs.com and tell us what you are looking to do. If you are new to websites let us help you select a domain name (yourname.com, .org, .net, ...), let us set up hosting for you, and finally let us design and administer the site for you.

We have a motto of keeping it simple for our clients, let us make it simple for you.

The Urban Techs web team has worked at all levels from giant multi-million dollar corporations, to law firms, to technology firms, to music production houses, to "mom and pop shops" with less that two employees working together to make a difference.

Some of our work includes:

www.alchemytechnologies.com

www.802actionsports.com

www.sapphirecut.com

www.smi-corp.com

www.thehawkstore.com

www.21kware.com

www.christopherrclarke.org

www.mikronesia.com
