

Reuse/Refurbished Computers

Computers Available for Teachers, Students, Public Schools, and Nonprofits.

Our program provides computer technology to teachers, students, schools, and nonprofits. There is a cost for our program. The cost covers a "Limited Warranty Service Contract". We provide a computer refurbished with each "Limited Warranty Service Contract". Our program "buys-down" the cost of computer technology and works on a "cost-recovery" basis. Please use our Request Form to apply for computers.

We provide an over-the counter exchange for any system that fails to operate. Physical damage, damage from Virus, and failure from user-added hardware and accessories are not covered. Your software and your data are not covered. The keyboard, mouse, and AC cords included are not covered.
